

NEIGHBORHOOD WALKABILITY ASSESSMENT

F-SNA has been a Great Neighborhood for many years. We want to continue to keep the neighborhood a wonderful place to live and improve it!

The 61st and 62nd Street resurfacing projects are complete and the 62nd Street multi-use pathway project is planned to be constructed this year. Moving forward....we would like to better connect our neighborhood and make it a safer place to walk, jog, bike, run, and visit friends!

On April 9th at 10:00 am we are asking F-SNA neighbors to meet at the front entrance of John Strange School. Each volunteer will be assigned a street (or two) to walk within the neighborhood. You will be given a clipboard, pencil and a brief questionnaire to fill out. This should take less than an hour out of your morning. Also, feel free to bring your digital camera and further document with photos!

These surveys will be compiled and the results presented back to F-SNA. We will then determine the avenues to pursue and the order in which to proceed.

PLEASE JOIN US.....

APRIL 9TH AT 10:00AM

Section C: Sidewalks

Please complete one Section C page for each street where you observe sidewalks within your walkable area.

Street observed: _____ between _____ and _____
Street Name *Cross Street 1* *Cross Street 2*

Day of week: _____ Time observations began: _____ a.m. p.m.

Date: _____ Time observations ended: _____ a.m. p.m.

DIRECTIONS: Place a √ below next to any items that are a problem for walkers and note:

- What might especially be a problem for a child, senior or person with disabilities?
- What is the exact location(s) of each problem? Record a landmark or side of street (north, south, east or west) on the blank line to the right of each item you check.

Problems for walkers

Location

- There are no sidewalks, paths or shoulders
- There are sidewalks, but they are not continuous (segments are missing)
- Sidewalk is not wide enough for two people to walk together side-by-side (5 ft.)
- Sidewalk is broken or cracked
- There is no buffer between traffic and the sidewalk
- Sidewalks are interrupted by driveways
- No/misplaced ramps (curb cuts) for wheelchairs, strollers and wagons
- Curb cuts are not textured or marked for those with visual impairments
- Sidewalk is blocked with poles, signs, shrubs, dumpsters, low hanging trees, etc.
- Cars, trucks, vendors are blocking the sidewalk
- Other issues and observations **(please specify)**

Overall rating of sidewalks in walk survey area:

Excellent Good Fair Poor
